

## Sprint 2 – Sprint Deliverables Meeting with Product Owners – 11<sup>th</sup> February

Present: Moad Sati, Rory Thomson-Bird, Qasim Baig, Adil Mushtaq, Rayyan Nomaan, Yousif Luay, Francesca Coss & Luna Cheung

Product Owners Present: Emma Lieu & Francisco Ferreira Ruiz

Minute Taker: Francesca Coss

### Summary of Product Owners points:

<u>Went well:</u>	<u>To work on:</u>
Order of speakers and discussion points.	Presentation was too long.
Clearly visible task allocation.	Presented with the PostgreSQL console.
Very snappy presentation and to the point.	Trello was underused this sprint: <ul style="list-style-type: none"><li>• there was no assignment of tasks.</li><li>• no task state columns (i.e., in completion or finished).</li></ul>
Git Usage – Sprint 1 comments were listened to.	Git: <ul style="list-style-type: none"><li>• Poor commit frequency during the first week, then high frequency the second week.</li><li>• Break commits into smaller/ more numerous chunks than the size previously used, e.g., after every method or function developed.</li></ul>

### Informal post-meeting mentions - Sprint 3 focus points:

- Increase Trello usage – Francesca to set up skeleton columns and cards post meeting.
- Next Sprint: Implementing the GUI to ensure front- and back-end code work synchronously. It will be vital to be able to continue with the project.
- Next Monday: Design meeting on Monday at 15:00 with the lecturers. We will use the full session to ensure the planning is well established for sprint 3.
