Present: Moad Sati, Rory Thomson-Bird, Qasim Baig, Adil Mushtaq, Rayyan Nomaan, Francesca Coss & Luna Cheung

Minute taker: Francesca Coss

Working on our allocated tasks in front-end or back-end subgroups.

Notable matters:

- Monday: Backend: Food & Drinks to be taken out of the items array and instead to create 2 separate ID arrays for the above mentioned.
- Tuesday: Issues encountered with security implementation (see security document for Sprint 2 for details). Henceforth, Francesca will work on the CSS stylesheet for the GUI.
