<u>Minute taker</u>: Francesca Coss

<u>Dates to remember</u>:
Thursday January 27th - Everyone needs to commit their work to the Staff branch in Git by 24:00 tonight (January 27th).
Friday January 28th – Meeting at 8:45 to ensure everything is ready for the meeting with the product owners.
Monday January 31st – Meeting to plan for Sprint 2.

<u>Current and Future Reminders</u>:
Luna – Remember to bring up your idea for the staff class to be developed in a later sprint. (The idea will be pinned in discord).

<u>Remaining work to be done during the meeting</u>:
- Missing meeting minutes: Francesca will commit any missing team meeting minutes to Git with backup meeting notes.

- Adil & Moad need to discuss any remaining thoughts and tasks for loading data between the local and online databases.

- Francesca, Adil & Moad need to commit their 'database security' research and 'loading data' instruction files to Git.

- Francesca will create and upload sprint 1 submission meeting slides to discord for team approval and as a backup copy, Teams so the product owners have a copy and will commit them to Git for submission.

- Qasim to make sure the 'data edit' code includes deleting and adding items

- Adil or Luna to change the database name from restaurant to Oaxaca
